

The background of the entire image is a blurred artistic workspace. In the foreground, several paint tubes are scattered on a white surface. One tube on the left is blue and has spilled its contents. A large, vibrant yellow puddle of paint is the central focus. To the right, a yellow tube of 'Ladoga' paint is lying on its side, with its label clearly visible. The label includes the brand name 'Ladoga', the number '2204220', and the color name 'Yellow medium' in multiple languages: 'Mittelgelb', 'Jaune moyen', 'Giallo medio', and 'Amarillo medio'. A red logo with the number '3' is also present on the label. In the background, other tubes of various colors (pink, red, blue) and a palette are visible but out of focus. The overall scene is brightly lit, emphasizing the colors of the paint.

Ladoga

ARTISTS' MATERIALS Ladoga

Artists' colours "Ladoga" are perfect for professional education and creative work. The high quality of "Ladoga" artists' colours is guaranteed by the manufacturing techniques and control at all stages of production. Expensive inorganic pigments in the colour palette are substituted by the light-fast organic ones. An optimal combination of price and quality makes the colours the best choice for artists, students and amateurs who are actively engaged in painting.

Artists' water colours

Artists' water colours "Ladoga" are produced on a basis of high-quality pigments and binders ensuring the main characteristics of water colours – transparence and purity of colour. Available in sets of 24 colours in 2,5 ml pans
